

Place le pion où tu entends le son

Se joue de 1 à 8 joueurs (un groupe en atelier).

Mettre au milieu de la table une série de cartes. Chaque enfant tire une carte, dit les deux mots correspondant aux images (vérification du lexique). L'enseignant précise quel son il faut chercher et demande à l'enfant de placer son pion là où il entend le son indiqué.

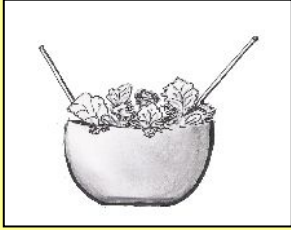

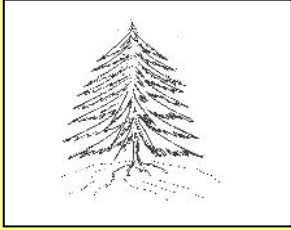

Se joue à tour de rôle au début et tous les enfants de l'atelier peuvent participer pour chacune des cartes. Ensuite, ce travail peut être plus individuel en fonction du niveau des élèves.

*Merci à Nathalie Menguy et aux stagiaires des animations pédagogiques qui ont permis les améliorations du jeu.*

*Remarque de fabrication : il est préférable de découper chaque petite planche et de les plastifier individuellement. Ainsi vous disposez de 30 cartes de jeu.*
